## **PURPOSE AND SCOPE OF REPORT:**

### **PURPOSE**

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

### **MINIMUM DIMINISHED VALUE**

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

### **FAIR MARKET VALUE**

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

### **REPLACEMENT VALUE**

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

### **FAIR MARKET VALUE PRIOR TO LOSS**

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

### **METHOD OF VALUATION**

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

### **ASSUMPTIONS AND LIMITING CONDITIONS**

## **ADDITIONAL COMMENTS**

### **MECHANICAL:**

It is at the appraiser and vehicle owner's discretion to test drive the subject vehicle. Test driving the vehicle does not constitute a guarantee of the current or future operational status or functionality of any mechanical, hydraulic, electrical or computer systems featured on the subject vehicle. Auto Appraisal Networks recommends that our customers contact an ASE Certified mechanic to perform such tests as needed. The types of problems encountered in older, classic and customized vehicles can be easily masked or hidden.

### **NOTES:**

On the date appraised, this 1950 Oldsmobile 88 Pro-Street Custom represents a very good example of a traditional custom conversion, with performance components.

While retaining the basic external looks and characteristics of this 66 year old Olds 88, this highly customized Oldsmobile has been custom fabricated with the addition of several pieces of technology and high performance products.

Features such as a high performance supercharged Olds 455 V-8 bored out to 462 cubic inches, TCI race prepped automatic transmission, power 4-wheel disc brakes, race ready suspension and roll-over protection are among some of the modifications and additions that make this a truly Custom vehicle. The Hilborn injection is an additional touch that makes this a truly special construction.

The caliber of all work performed on this Olds 88 is of the highest quality, the entire vehicle both highly detailed as well as being extremely well finished.

The fair market value of this 1950 Oldsmobile 88 is based on the average asking price of similar Pro Street vehicles available in the market place. Allowances have been made for the noted options and customizations. The fair market value does not include tax, title or registration fees.
