To Whom It May Concern:

In compliance with the recent request, we have appraised the above referenced vehicle.

We have enclosed the limited appraisal report that constitutes our analysis and conclusion of the research completed on this vehicle.

The Fair Market Value of this vehicle, as of the date specified herein was; **\$22,500.00**

Thank you very much for your business, and if you should have any further questions, please do not hesitate to call.

Very truly yours,

Appraiser, Auto Appraisal Network, Palm Beach

PURPOSE AND SCOPE OF REPORT:

PURPOSE

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

MINIMUM DIMINISHED VALUE

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

FAIR MARKET VALUE

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

REPLACEMENT VALUE

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

FAIR MARKET VALUE PRIOR TO LOSS

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

METHOD OF VALUATION

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

ASSUMPTIONS AND LIMITING CONDITIONS

This report has been prepared and issued only to the person named on the cover, and no other persons should rely on this report.

Information including, vehicle identification numbers, serial numbers, engine numbers, engine size, component serial numbers, color codes, paint codes, trim codes, component stampings, door tags, fender tags, cowl tags, date codes, badges, emblems, owner history and mileage information provided by the owners or parties to sell or others, or displayed on the appraised vehicle or components are assumed to be reliable, correct and truthful, as accuracy is not checked or guaranteed for originality or authenticity.

1967 MG MGB Roadster

Lot No. 1061

Auctioned on Friday, May 8, 2015

< PREV LOT

NEXT LOT >

Sold for \$ 19,800

In 1967, Paddy Hopkirk and Andrew Hedges drove a mildly modified (from standard production specifications) MGB at Le Mans in the legendary 24 hour motor race. They were able to cover 2,392 miles at an average speed of 99.9-mph and claimed the 'Motor' trophy for the highest placed British entry. At the time this car was built, MG had over 30 years as a leader in sports car motoring and innumerable racing and competition successes that paved the way for a range of cars with advanced design and performance attributes. "Safety Fast" was a theme for MG in marketing their fun and nicely styled machines to enthusiasts of all ages.

This red with black leather interior MG MGB Roadster has a black convertible top, and it is powered by a 1,798-cc, 95-hp inline four-cylinder engine that is paired with a four-speed manual transmission. Along with a radio, it has Minilite-style eight-spoke alloy wheels. It has been frame-off restored, with it being noted that this restoration process was completed during the earlier months of 2015.
