APPRAISAL REPORT: 1976 Lincoln Continental Mk IV 2-Dr Hardtop Classic Vehicle

To Whom It May Concern:

In compliance with the recent request, we have appraised the above referenced vehicle.

We have enclosed the limited appraisal report that constitutes our analysis and conclusion of the research completed on this vehicle.

The Fair Market Value of this vehicle, as of the date specified herein was; **\$13,900.00**

Thank you very much for your business, and if you should have any further questions, please do not hesitate to call.

Very truly yours,

Ron Gibson

Appraiser, Auto Appraisal Network, Dallas, TX

PURPOSE AND SCOPE OF REPORT:

PURPOSE

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

MINIMUM DIMINISHED VALUE

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

FAIR MARKET VALUE

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

REPLACEMENT VALUE

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

FAIR MARKET VALUE PRIOR TO LOSS

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

METHOD OF VALUATION

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

ADDITIONAL COMMENTS

MECHANICAL:

It is at the appraiser and vehicle owner's discretion to test drive the subject vehicle. Test driving the vehicle does not constitute a guarantee of the current or future operational status or functionality of any mechanical, hydraulic, electrical or computer systems featured on the subject vehicle. Auto Appraisal Networks recommends that our customers contact an ASE Certified mechanic to perform such tests as needed. The types of problems encountered in older, classic and customized vehicles can be easily masked or hidden.

NOTES:

On the date appraised, this 1976 Lincoln Continental Mk IV represented a very good example of this true American classic 2-Dr Hardtop.

This 1976 Lincoln Continental Mark IV Givenchy Series has an ownership history with only three owners and the car was kept always in a garage since purchased new at Zimmerman Mercury/Lincoln dealership in St. Charles, Illinois. The car then went to second owner in Ohio and now is owned in Texas for last five years. With only 50,150 miles it still drives beautifully. This is one very long example of the past glory of big luxury cars.

As noted on the Vehicle Option pages, and as depicted on the many enclosed digital photographs, this '76 Lincoln has been maintained in its original condition as a Survivor Classic.

In addition to the noted condition, this '76 Continental has a very desirable option package that includes 460/202 V8 engine, power everything and Givenchy limited edition designer series.

This vehicle is typical of the type automobile that both collectors and enthusiasts sought after when looking to either add to, or expand onto their collection.

We are currently in an economy in which classic car values continue to consistently improve. Record prices are being paid at each consecutive auction for similar automobiles. As long as this trend continues, a vehicle of this caliber is likely to continue to appreciate in the foreseeable future.

The fair market value of this 1976 Lincoln Continental Mark IV Givenchy Series is based on the average asking price of similar vehicles available in the market place. The fair market value does not include tax, title or registration fees.
