PURPOSE AND SCOPE OF REPORT:

PURPOSE

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

MINIMUM DIMINISHED VALUE

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

FAIR MARKET VALUE

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

REPLACEMENT VALUE

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

FAIR MARKET VALUE PRIOR TO LOSS

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

METHOD OF VALUATION

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

As of March 11, 2023,, this 1934 Plymouth Deluxe represented a poor example of this 89-year old American classic 5-Window Coupe.

As noted on the Vehicle Option pages, and as depicted on the many enclosed digital photographs, this '34 Deluxe has been bult into a rat rod.

In addition to the noted condition, this '34 Deluxe has a 361 cid V8 engine, 3 speed manual transmission, and a 9" rear-end.

The fair market value of this 1934 Plymouth Deluxe is based on the average asking price of similar Plymouths in the market place. Allowances have been made for the noted options and condition. The fair market value does not include tax, title or registration fees.

Current customer rating: 🍷🍷🍷👍(2.05) based on 386 votes

I have reluctantly decided to sell my 1934 Plymouth street rod project. I was just diagnosed with a chronic lung disease and I am not going to be able to do the sanding, painting and welding that the car would need to finish her off. The buyer will have a good start on this project. It has a current Connecticut registration. Some of the things that have been done is it has a strong running Chrysler V-8 engine with a 2bbl carb. It has a Chrysler 726 automatic transmission. Ford LTD front end including power disk brakes. Ford 9" rear end with power drum brakes. power steering. The previous owner installed power windows in the front and poppers with bear claws on the front doors. I have the original handles and was going to go back to them. I like the looks of the handles, especially with the double suicide doors. Everything works but I bought a modern 24 fuse fuse box and planned on rewiring the car. The fuse box/wiring harness will be included with
