PURPOSE AND SCOPE OF REPORT:

PURPOSE

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

MINIMUM DIMINISHED VALUE

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

FAIR MARKET VALUE

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

REPLACEMENT VALUE

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

FAIR MARKET VALUE PRIOR TO LOSS

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

METHOD OF VALUATION

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

ASSUMPTIONS AND LIMITING CONDITIONS

Information including, vehicle identification numbers, serial numbers, engine numbers, engine size, component serial numbers, color codes, paint codes, trim codes, component stampings, door tags, fender tags, cowl tags, date codes, badges, emblems, owner history and mileage information provided by the owners or parties to sell or others, or displayed on the appraised vehicle or components are assumed to be reliable, correct and truthful, as accuracy is not checked or guaranteed for originality or authenticity.

Although Auto Appraisal Network has an extensive library, we do not have direct access to specific manufacturer's records, log books, files, computer data bases or other non published information.

Unless the client particularly asks for this in writing, and agrees to absorb any additional cost in obtaining, no such effort will be made in contacting manufacturers, automotive groups, clubs, historians, etc. in order to acquire such information.

NOTES:

On the date appraised, this 1949 Ford F-1 Panel Van represents a Good to Very Good example of a traditional Hot Rod conversion.

While retaining some of the basic external looks and characteristics of this 62 year old classic Ford Panel, this rare '49 Panel has been built with some performance and styling modifications to more than enhance its former utilitarian past.

With bodywork and paint performed in 2001 by the legendary Bob Barry of Barry's Garage in Preston, Connecticut, this panel sports many features such as a high performance Edelbrock Performer 350 V-8 engine, automatic transmission with shift-kit, power front and rear disc brakes, and a skull and flame themed custom upholstered interior, just to name a few.

As noted on the extensive Vehicle Option pages, and as depicted on the many enclosed digital photographs, this F-1 Panel was custom fabricated using the many of the finest modern components available, while at the same time retaining much of its classic charm. Areas of concern are limited to the glass missing from the rear window, and a broken inside passenger-side door handle.

The caliber of all work performed on this 1949 Ford F-1 Panel van is of very high quality, with the entire vehicle being both highly detailed and extremely well finished.

The fair market value of this 1949 Ford F-1 is based upon the average asking price of similar vehicles available in the marketplace. Allowances have been made for the noted options and condition. The replacement value does not include tax, title or registration fees. The fair market value does not include tax, title or registration fees.
