PURPOSE AND SCOPE OF REPORT:

PURPOSE

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

MINIMUM DIMINISHED VALUE

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

FAIR MARKET VALUE

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

REPLACEMENT VALUE

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

FAIR MARKET VALUE PRIOR TO LOSS

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

METHOD OF VALUATION

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

MECHANICAL:

It is at the appraiser and vehicle owner's discretion to test drive the subject vehicle. Test driving the vehicle does not constitute a guarantee of the current or future operational status or functionality of any mechanical, hydraulic, electrical or computer systems featured on the subject vehicle. Auto Appraisal Networks recommends that our customers contact an ASE Certified mechanic to perform such tests as needed. The types of problems encountered in older, classic and customized vehicles can be easily masked or hidden.

NOTES:

On the date appraised, this 1954 Ford Popular represented a good example of an English Ford 2-Dr Saloon. The 100E series was available as a two-door Popular, two-door Anglia and a four-door Prefect. The only difference between a Popular and an Anglia was the exterior trim and running boards. This Popular has been built as an Anglia Hot Rod.

It has had an older restoration in 1997 and now needs body work, paint, and the interior needs to be cleaned. It is a fantastic daily driver as is and would be a wonderful project to the collector. It simply needs some additional attention to bring it to the next level.

As noted on the Vehicle Option pages, and as depicted through the many photographs, this '54 Anglia was custom built 22 years ago. In addition to the noted condition, this '54 Anglia has a custom option package that includes a Chevrolet 386 cid V-8 motor, 4-speed automatic transmission, narrowed Ford 9" differential with 4-link rear suspension, a complete roll cage, box frame and custom interior.

This vehicle is such a great car for any collector as a project. With very little work this car could be in tip-top shape. It would be a welcome addition to any collection.

We are currently in an economy in which classic car values continue to improve. Stronger prices are being paid at auction for similar automobiles. As long as this trend continues, a vehicle of this caliber is likely to continue to appreciate in the foreseeable future.

The fair market value of this 1954 Ford Popular is based on the average asking price of similar vehicles available in the market place. Allowances have been made for the noted options and customizations. The fair market value does not include tax, title or registration fees.
