PURPOSE AND SCOPE OF REPORT:

PURPOSE

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

MINIMUM DIMINISHED VALUE

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

FAIR MARKET VALUE

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

REPLACEMENT VALUE

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

FAIR MARKET VALUE PRIOR TO LOSS

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

METHOD OF VALUATION

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

ASSUMPTIONS AND LIMITING CONDITIONS

NOTES:

On the date appraised, this early 1965 Ford Mustang represents a very good example of a traditional custom 2-Dr convertible also known as a 1964-1/2.

While retaining the basic external looks and characteristics of this 57 year old classic, this '64 Mustang has been custom fabricated with the addition of several pieces of modern technology.

Features such as the original performance upgraded 289 V-8 motor, 4 speed top loader manual transmission, front disc brakes and Pony interior make this a truly custom vehicle.

As noted on the extensive Vehicle Option pages, and as depicted on the many enclosed digital photographs, this '65 Mustang was purposely fabricated using many of the finest custom components available.

The caliber of all work performed on this vehicle is of the highest quality, the entire vehicle both highly detailed as well as being extremely well finished.

The fair market value of this 1965 Ford Mustang is based on the average selling price of similar '65 Mustang's in the market place. Allowances have been made for the noted options and condition. The fair market value does not include tax, title or registration fees.

This 1965 Ford Mustang convertible was acquired by the seller as a project in 1998 and was subsequently refurbished over the next four years. Work included a repaint in the factory shade of Twilight Turquoise, along with interior refreshment, a rebuild of the 289ci V8, and installation of a Flowmaster dual exhaust system, Rally-Pac gauges, 15" Torq Thrust wheels, and more. Shifting is through a four-speed manual transmission, and additional equipment includes power steering, an AM radio, and a power-operated soft top. Approximately 3k miles have since been added by the seller, and the fuel tank was replaced this year. This Mustang is now offered with service records, removed factory parts, and a clean California title in the seller's name.
