## **PURPOSE AND SCOPE OF REPORT:**

### **PURPOSE**

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

### **MINIMUM DIMINISHED VALUE**

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on the proportional difference between wholesale and retail market data adjusted for damage severity.

### **FAIR MARKET VALUE**

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

### **REPLACEMENT VALUE**

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

### **FAIR MARKET VALUE PRIOR TO LOSS**

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

### **METHOD OF VALUATION**

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

### **MECHANICAL:**

It is at the appraiser and vehicle owner's discretion to test drive the subject vehicle. Test driving the vehicle does not constitute a guarantee of the current or future operational status or functionality of any mechanical, hydraulic, electrical or computer systems featured on the subject vehicle. ### **NOTES:**

On the date appraised, this 1965 Porsche 911 represented a very good example of a classic German 2-Dr Coupe sports car.

As noted on the Vehicle Option pages, and as depicted on the many enclosed digital photographs, this 60 year old Porsche 911 has been well maintained and appears to have mostly original paint. This vehicle has been well documented with evidence from Porsche Certificate of Authenticity as well as the documentation showing the extent of work done during restoration.

In addition to the noted condition, this Porsche 911 has a 2.0 liter 6-cylinder Boxer engine, 5-speed manual transmission and Weber carburetors.

This vehicle is typical of the type automobile that both collectors and enthusiasts sought after when looking to either add to, or expand onto their collection.

The Porsche 911 is a very desirable car as it is well balanced along with the exceptional German engineering. The Porsche 911 has been increasing in value even though many cars in the current market have not.

The fair market value of this 1965 Porsche 911 is based upon the average asking and high bid price of similar 911's in the marketplace. Allowances have been made for the noted options and condition. The fair market value does not include tax, title or registration fees.

## About this 1965 Porsche 911

VIN: 302164

In Germany it was partially disassembled and treated to a mechanical restoration where necessary with emphasis on keeping the car as original as possible. The engine was taken out and resealed and cleaned. With the low mileage, no rebuild was needed. All of this work was done by a German Porsche specialist and is documented with invoices and photos. The result is a gorgeous nicely sorted and highly original early Porsche 911. The car still carries the original Webasto heater as mentioned in the Kardex. Very solid and dry vehicle with original floors and no signs of prior rust repairs. This is a rare opportunity to acquire an early 911 with all the unique features these early cars have. The car is fully numbers matching with original Kardex card and Porsche Certificate of Authenticity. Part of a larger Porsche collection.

VIN: 300318

This car on offer is very early production vehicle (VIN# 300318) and finished in beautiful Irish Green (6406) over black interior.

The car was delivered new on February 18th 1965 to German dealer Schidt und in Bremen, Germany. The owner history is only lost for 4 short years, when an American Porsche enthusiast bought eh car on February 20th 1969. That owner kept the car for 41 years (!) up until 2010 when the Porsche was brought back home to Germany. Since then, it has been in numerous collections, but not road registered.

The current owner carefully had the car dry ice cleaned and sorted, but it is generally un-restored.

This is a very rare opportunity to acquire such an early Porsche 911 (VIN# 300318)) with all the unique features only the early 65 cars have.

The car runs and drives, but will need work and or restoration to be prepared for the next 60 years. It is a largely rust-free and solid example in a stunning color combination. This is a 100% complete car, fully numbers matching with original Kardex card.
