## **PURPOSE AND SCOPE OF REPORT:**

### **PURPOSE**

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

### **MINIMUM DIMINISHED VALUE**

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

### **FAIR MARKET VALUE**

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

### **REPLACEMENT VALUE**

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

### **FAIR MARKET VALUE PRIOR TO LOSS**

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

### **METHOD OF VALUATION**

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

### Description:

#### 1966 Chevrolet C10

Slick paint, upgraded V8 power, and an attention to detail make this 1966 Chevrolet C10 a standout total pickup. This truck was restored to really highlight the best of what Chevy was doing. After all, this generation C10 has that continuous line around the front and sides, like they scooped out a horseshoe from the design. It's a daring look for sheetmetal, and the updated glossy red paint highlights these curves

beautifully. And with panels this straight, the full-length side trim looks almost like an unbroken line. Even the details are great with the bright wood in the truck bed and the shine of the newer rear bumper. Plus, those 16-inch Vision alloy wheels hint at some of the power upgrades within. Just like the exterior, the interior looks nice and vintage with just a hint of upgrades. For example, you have the classic grippy steering wheel that also gives you a clear view to the factory gauges. The bench seat and carpeting were recently replaced with correct materials, and the dash has a nice coat of glossy red. And the upgraded AM/FM/CD stereo with aux input means you get to cruise this pickup with the best modern tunes. Within the dark engine bay, the bold block paint, shining air topper, and ribbed valve covers funnel your attention immediately to the motor. This 350 cubic-inch V8 is a nice upgrade in displacement from what was available in '66, and it only gets better from there. This small block inhales deeply with a Holley four-barrel carburetor and Edelbrock aluminum intake. And this helps give a nice tune to the dual exhaust. A powerful truck like this was meant to hit the streets, and that's easy thanks to power steering, a three-speed automatic transmission, and the C10's sought-after trailing arm rear suspension. This red restored pickup has the right power and poise to be your new favorite classic. So don't let this opportunity slip away. Call today!!!
