**APPRAISAL REPORT: 1966 Ford Mustang 2-Dr Convertible Classic Vehicle**

**To Whom It May Concern:**

In compliance with the recent request, we have appraised the above referenced vehicle.

We have enclosed the limited appraisal report that constitutes our analysis and conclusion of the research completed on this vehicle.

The Fair Market Value of this vehicle, as of the date specified herein was; **\$30,200.00**

Thank you very much for your business, and if you should have any further questions, please do not hesitate to call.

**Ron Gibson**

*Appraiser, Auto Appraisal Network, Dallas, TX*

## **PURPOSE AND SCOPE OF REPORT:**

### **PURPOSE**

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

### **MINIMUM DIMINISHED VALUE**

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

### **FAIR MARKET VALUE**

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

### **REPLACEMENT VALUE**

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

### **FAIR MARKET VALUE PRIOR TO LOSS**

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

### **METHOD OF VALUATION**

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

### **ASSUMPTIONS AND LIMITING CONDITIONS**

This report has been prepared and issued only to the person named on the cover, and no other persons should rely on this report.

Information including, vehicle identification numbers, serial numbers, engine numbers, engine size, component serial numbers, color codes, paint codes, trim codes, component stampings, door tags, fender tags, cowl tags, date codes, badges, emblems, owner history and mileage information provided by the owners or parties to sell or others, or displayed on the appraised vehicle or components are assumed to be reliable, correct and truthful, as accuracy is not checked or guaranteed for originality or authenticity.

Although Auto Appraisal Network has an extensive library, we do not have direct access to specific manufacturer's records, log books, files, computer data bases or other non published information.

### **NOTES:**

On the date appraised, this 1966 Ford Mustang represented an excellent example of this true American classic 2-Dr Convertible.

As noted on the Vehicle Option pages, and as depicted on the many enclosed digital photographs, this 1966 Mustang has been professionally restored back to a near perfect, as factory condition in 2006.

In addition to the noted condition, this '66 Mustang has a very desirable option package that includes a 289 cubic inch V-8 motor, Pony interior, power disc brakes, and a convertible top.

This vehicle is typical of the type automobile that both collectors and enthusiasts sought after when looking to either add to, or expand onto their collection.

The fair market value of this 1966 Ford Mustang 2-Dr Convertible is based on the average asking price of similar vehicles available in the market place and credited for the noted condition. The replacement value does not include tax, title or registration fees.
