

1969 Javelin SST - \$20,000

This 1969 Javelin SST is a very fine example of a classic muscle car. Less than 500 Javelins came with the Platinum vinyl interior option. You may be viewing the only surviving Javelin with this option and this one has been very well cared for. It is original with one repaint. The car has been updated with new suspension, brakes, and cooling system.

The interior has a new stereo with rear shelf speakers and repadded front bucket seats. It has a new electronic ignition and new plugs and wires. It rides on new BF Goodrich tires. An itemized list of all the recent updates is available. It is stored indoors under dry conditions. It has no rust and is not driven or exposed to any unfavorable weather conditions. In a recent appraisal, the car was rated as Fine. It may be the cleanest Javelin in existence today.

Additional pictures and the appraisal report are available upon request. An inspection can be arranged by appointment only. If the car needs to be shipped, we will ensure the car is available for the transporter's schedule. Reasonable offers will be considered. If you have questions or want to discuss the car, contact Randy at 612-619-2252.
