## **PURPOSE AND SCOPE OF REPORT:**

### **PURPOSE**

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

### **MINIMUM DIMINISHED VALUE**

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

### **FAIR MARKET VALUE**

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

### **REPLACEMENT VALUE**

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

### **FAIR MARKET VALUE PRIOR TO LOSS**

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

### **METHOD OF VALUATION**

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

### **ASSUMPTIONS AND LIMITING CONDITIONS**

This report has been prepared and issued only to the person named on the cover, and no other persons should rely on this report.

Information including, vehicle identification numbers, serial numbers, engine numbers, engine size, component serial numbers, color codes, paint codes, trim codes, component stampings, door tags, fender tags, cowl tags, date codes, badges, emblems, owner history and mileage information provided by the owners or parties to sell or others, or displayed on the appraised vehicle or components are assumed to be reliable, correct and truthful, as accuracy is not checked or guaranteed for originality or authenticity.

### **MECHANICAL:**

It is at the appraiser and vehicle owner's discretion to test drive the subject vehicle. Test driving the vehicle does not constitute a guarantee of the current or future operational status or functionality of any mechanical, hydraulic, electrical or computer systems featured on the subject vehicle. The types of problems encountered in older, classic and customized vehicles can be easily masked or hidden.

### **NOTES:**

On the date appraised, this 1974 Pontiac Firebird Trans Am represented a very good example of this true American classic automobile and one of 1,962 built with a manual transmission. This 1974 Pontiac Trans Am was purchased by present owner from person that bought car at Mecum Auction in Dallas, Texas.

As noted on the Vehicle Option pages, and as depicted on the many enclosed digital photographs, this '74 Trans Am has been professionally restored back to a near perfect, as factory condition.

In addition to the noted condition, this '74 Firebird has a very desirable option package that includes 400 cubic inch engine, four speed manual transmission, and Trans Am option package.

This vehicle is typical of the type automobile that both collectors and enthusiasts sought after when looking to either add to, or expand onto their collection.

We are currently in an economy in which classic car values continue to consistently improve. Record prices are being paid at each consecutive auction for similar automobiles. As long as this trend continues, a vehicle of this caliber is likely to continue to appreciate in the foreseeable future.

The replacement value of this 1974 Pontiac Trans Am is based on the average asking price of similar vehicles available in the market place. The replacement value does not include tax, title or registration fees.

**TAKE THE CHALLENGE.**

**Description**

We are pleased to offer this 1974 Pontiac Firebird Trans-am for consideration. The Trans-am is an iconic vehicle of the 1970s with a faithful following. The 1974 Pontiac Firebird Trans-am is considered the last muscle car. EPA and fuel conservation regulations were enacted to make this the last Detroit muscle car of the era. This car is a really high functioning driver. The feel behind the wheel makes the driver comfortably in charge of the road. This car is perfect for the Trans-am enthusiast, and it will turn heads wherever it goes.

This is a fully restored Trans-am with only 150 miles since the completion of the work. The work was finished this winter and looks very good. The engine is a NOM Ram Air 400 that runs very well with plenty of power. The other work includes: a professionally rebuilt transmission, new belts, new hoses, new fuel lines, new seats, and an awesome paint job.

This is a very nice restoration that will start up for those summer cruises in style. A close inspection of this car will show that this car is a cannot miss. Please call for receipts and more details!

#### LEARN TO RECOGNIZE GOOD DEALS FROM BAD:

Unfortunately, there are people out there who will use classifieds to get your money. Here are some ways to avoid these scams. Use skepticism and good judgment.

1. Be wary if the price is notably below market value.
2. Be prudent with International transactions. A good number of buyer/seller fraud attempts originate from overseas.
3. Confirm contact information. Legitimate buyers/sellers will provide valid information, including phone.
4. In almost every case scammers will convey a sense of urgency.

Please report any suspicious ads or contacts you have received - we cannot guarantee the validity of all "businesses" or "individuals" that choose to advertise on our sites. For more information, please see our **Terms of Use**.
