## **PURPOSE AND SCOPE OF REPORT:**

### **PURPOSE**

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

### **MINIMUM DIMINISHED VALUE**

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on the proportional difference between wholesale and retail market data adjusted for damage severity.

### **FAIR MARKET VALUE**

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

### **REPLACEMENT VALUE**

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

### **FAIR MARKET VALUE PRIOR TO LOSS**

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

### **METHOD OF VALUATION**

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

### **NOTES:**

On the date appraised, this 1985 Rolls Royce Corniche represented a very good example of this 40-year old luxury British classic 2-Dr Convertible.

As noted on the Vehicle Option pages, and as depicted on the many enclosed digital photographs, this '85 Corniche has been maintained in near perfect, original condition.

Recent work is shown on invoices; new vinyl convertible top was recently installed as were new BF Goodrich white wall tires. The battery is dated 12/24. The interior is in beautiful tan Connolly leather with no apparent cracks or patina. On the day of the inspection, all systems were in working order.

In addition to the noted condition, this '85 Corniche has a very desirable standard equipment and desirable options that includes 6.75 liter V-8 engine, 3-speed automatic transmission, all power, air conditioning, factory stereo, all manuals and a power convertible soft top.

The very good condition and with only 26,000 original miles and recent maintenance records make this an exceptional example of this luxury, rare, classic automobile.

This vehicle is typical of the type automobile that both collectors and enthusiasts sought after when looking to either add to, or expand onto their collection.

The fair market value of this 1985 Rolls Royce Corniche is based on the average asking and selling price of similar Corniche's in the market place. Allowances have been made for the noted miles, options and condition. The fair market value does not include tax, title or registration fees.
