PURPOSE AND SCOPE OF REPORT:

PURPOSE

The purpose of this document is to report to the customer the appraiser's opinion of the overall condition of the subject vehicle.

MINIMUM DIMINISHED VALUE

The Minimum Diminished Value of the vehicle is described as the minimum amount of money that an automobile is estimated to have depreciated in value, due to a particular accident, mishap, event or circumstance and is based on wholesale market pricing and the standard sliding scale established by the International Society of Automotive Appraisers or a fair market offer to purchase after the date of loss.

FAIR MARKET VALUE

The Fair Market Value of the vehicle is the highest price on the date of valuation that would be agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available.

REPLACEMENT VALUE

The replacement value of a vehicle is defined as the actual total cost of exactly duplicating the vehicle if it were subject to a total loss. In the case of a customized or modified vehicle this must also include the cost of obtaining an identical type of 'donor' or 'base' vehicle, the cost of obtaining all of the additional aftermarket and specialty components along with all labor costs incurred to replicate the loss vehicle.

FAIR MARKET VALUE PRIOR TO LOSS

The Fair Market Value of the vehicle Prior To Loss is the highest price on that prior noted date of valuation that would have been agreed to by a seller, being willing to sell, and a buyer, being willing to buy, and under no particular necessity for so doing, each dealing with the others full knowledge of all the uses and purposes for which the property is reasonable, adaptable and available immediately prior to the known loss date of that vehicle.

METHOD OF VALUATION

The value is estimated by current market data comparison, supplemented by cost information. The vehicle is compared when possible, with others for sale and that have sold in the general time period. Adjustments are made for differences in equipment, mileage, cosmetics, conversions, originality, condition as well as sale terms and current economic conditions at time of sale.

ASSUMPTIONS AND LIMITING CONDITIONS

This report has been prepared and issued only to the person named on the cover, and no other persons should rely on this report.

Information including, vehicle identification numbers, serial numbers, engine numbers, engine size, component serial numbers, color codes, paint codes, trim codes, component stampings, door tags, fender tags, cowl tags, date codes, badges, emblems, owner history and mileage information provided by the owners or parties to sell or others, or displayed on the appraised vehicle or components are assumed to be reliable, correct and truthful, as accuracy is not checked or guaranteed for originality or authenticity.

Although Auto Appraisal Network has an extensive library, we do not have direct access to specific manufacturer's records, log books, files, computer data bases or other non published information.

NOTES:

On the date appraised, this 1995 Ford Mustang GT represented a very good example of this popular limited edition 2-Dr Convertible.

The history behind this convertible is unique. In 1995, Texaco ran a sweepstake scratch cards contest where the winners would be given a '95 Mustang GT Convertible with the Mario Andretti signature graphics with matching colored wheels. It is said in a Ford Mustang forum that only 44 were given away that year. The original window sticker does not show any add-on's for the contest. However, there is documentation that a company Roll-a-Long in Placentia, CA did the modifications for the contest. Other than the graphics and wheel, it is unknown what else has been done.

The winner, the first owner, immediately traded in the car since she did not know how to drive a manual transmission. The second owner bought it from the dealership with only 38 miles on the odometer. The third and current owner purchased the car with only 18K miles on it and has put on approximately 18K more miles on it.

As noted on the prior Vehicle Option pages, and as depicted on the many enclosed digital photographs, this '95 Mustang GT Convertible appears to have been well taken care of, and always maintained in accordance with the manufacturers recommendations and specifications.

In addition to the noted condition, this '95 Mustang GT has a desirable factory option package that included 5.0 L V-8 motor, 5-speed-manual transmission, convertible top, and preferred options package 249A. But the uniqueness is in the aftermarket Mario Andretti graphics and matching colored wheels.

The fair market value of this 1995 Ford Mustang GT is based on the average asking price of similar vehicles in the market place. Allowances have been made for the noted limited edition. The fair market value does not include tax, title or registration fees.
