-Picture 5: Close up picture of the instrument cluster, taken from the back seat.

-Picture 6: Close up picture of the odometer miles.

-Picture 7: Close up picture of Vehicle Identification Number (VIN) plate, (will have to be taken through windshield if on dash).

Undercarriage and Engine Compartment Photo Instructions

The following pictures are taken from the ground angled up slightly.

-Picture 1: Rear end and driveshaft.

-Picture 2: Rear drum or disc brake.

-Picture 3: Front drum or disc brake.

-Picture 4: Bottom of engine and transmission.

The following are taken with the hood up looking down at the engine compartment.

Picture 5: Right side of engine from the right fender wall to the intake manifold.

Picture 6: Front of engine from the radiator to the firewall.

Picture 7: Left side of engine from the left fender wall to the intake manifold.

Identification Photo Instructions

The following pictures are taken close up and may need to use the Macro function of your camera

-Picture 1: Current photo of the VIN tag, for late model car in the window, for classics inside the door or stamped into the frame

-Picture 2: Odometer, this photo can be tough, we just need to be able to read the mileage.

-Picture 3: Door Tag (Ford), Fender tag (Mopar) and Cowl Tag (Chevrolet), if these are available, take a picture.

-Picture 4: Rear license plate, close up.

-Picture 5: Title and or registration, this is only used to verify the VIN, Year, Make and Model of the car and address if same as where the final report will be mailed.

Skip any of the aforementioned items that are not present.
